Hello Vladimir,

Based on too many troubles and force in business from EISENHARDT, I am forced to provide our end user to you .

Please note below points:

- Our selling price to user was 32 USD extra then your yard. They accepted and are ready to move. My Australia team works along with me on this.
- We thought of representing your team amongst our users like we have done many a times for Canada yards and Uk yards however I am extremely upset about the fact that your team do not value real companies.
- As far as we are concerned we never change our words in business. I invite you or your team to our factories listed below in our group:

Fish Oil Factory:

[WWW.Ranee.com.vn](http://WWW.Ranee.com.vn)

Seafood Factory:

[www.idiseafood.com](http://www.idiseafood.com)

Rice Factory:

Song thuan Company limited

Sao mai Group

[www.Saomaig.vn](http://www.Saomaig.vn)

Our CEO is 51% shareholder of all these factories and SKYINTERTRADES CEO as well. I represent this trade branch as Director.

Let me know during your visits , I will provide visa and accommodations and pickup + local travel arrangements for your team to see more than 16 warehouses we own.

We still will not be registering to your company as there should not be any fees + some respect for people who are trying to give more and serious business to your company.

The 3 USD commission cannot be less in any case and your company can take rest extra profit and manage things easily. All we wanted was clear business and as we promised your quotation we have none choice whatsoever to do this shipment immediately.

We will send NCNDA tomorrow to you with our team credentials meanwhile you can send contract or if EISENHARDT plan not to send us anything we are fine.

The form of our buyer is filled, check his banks, check whatever you need to do and see their potential.

Have a nice time and enjoy the evening! Please note a message , business never stops and there should be some people who should be addressing values in company.

In case your team will feel like not even bothering about NCNDA , let us know that as well.

Hello,

Please answer below things:

1. Why are you asking for a membership fees when you want a potential company to represent you?
2. Our Financial Department offers pricing to our end users based on our relations. They can Be over 10 USD from your supply or even more but that is never your concern. Its simple business. Do we expect you to pay us back that money?
3. We will be ready to divert our end users to you once you clear this part .

Else you can also miss some genuine buyers of scrap in this world and of course who are settled then 50 + years when Eisenhardt wasn't even started.

Think and Act wise and inform me.

Also , I do not see anything potential to sell from your side except these all documentation work. Please arrange a call with CEO or Director to us by providing details so I can discuss with them personally .

Due to the fact you did not send BCL, bank verification of funds, credentials as scrap buyer, the only way to proceed is that you introduce to EISENHARDT end buyer and sign NCNDA by all parties including end buyer. In this way we can accept your deals.

**About commission, if it is required, we accept to pay usd 3/Mt for commission (for operations of higher amounts and/or longer terms, the comm will be smaller) to be added on sale price. For higher comm / overprices, we require your registration as our EAA member. The FPA for the fee commissions will be signed at the Contract stage. If you consider necessary, Eisenhardt is opened to sign a NCNDA [www.eisenhardt-trading.com/wordsdocuments/NCNDA.doc](http://www.eisenhardt-trading.com/wordsdocuments/NCNDA.doc) with all involved parties, including potential buyer.**

If this is not acceptable for you, we wish you good luck in your search.

Hello Team,

Based on all conversations and requests, please see clear indication as below:

- We are here to create deals for Users who trust us already. You have asked purchase forms , its filled. Vietnam Banks and when our users trust us more , we will be the one providing Letter of credit. We are here to finish some projects.
- We will advise you who and when things and how they will be done in contracts but we will be the ones signing contracts.
- There are certain things I need to inform you, Our end users buy 1 Million MT UBC per year, 6063 , HMS, Used Rails, Copper mulberry , Copper cathodes and rest scraps. We are dealing with other companies as well who provide us products and we simply transfer them credit as per UCP 600 .
- In case you need anything , banks will never provide and things in Vietnam banking doesn't work like the world. Here only at the time of LC banker come in picture AND NEVER Before.

- We buy agricultural products for our cashew nuts factory , also we give lc and deal is done.
- We like to do simple business and Vietnam buyers don't make jokes in business with anyone.

All these things of SCo, FCO, ICPO, made by intermediaries and seller don't force buyers for it. Whatever rules you have we respect it so much, we like to work with you, in case you need to work with us, I have sent you purchase form and I will modify it for another requirement and needs and advise consignee to you and arrange face to face meetings after contract.

With the purchase order I gave to you for india yard we would like to get 100 MT to india port as well which we will include in same contract or if you want a new purchase form. This is what I can do for you at the moment and inform me if you want to sell your products or we need to move to other providers who are easy for us to deal with.

I will not be explaining anything else.

We can arrange call with CEO if we need that .

Vladimir,

Thanks for your support so far.

If it is anything else you need let us know. We will be working together and we are a group who owns factories and yards. So I would hope you can send me a clear contract if you have the product with you for us to give LC to you. Else we will keep revolving in emails like you have been doing instead purchase form is filled and sent to you already.

I am looping your member who actually understands the most part and replies on time with solutions instead keeping people in misery. I am reseller to Novalis, Alcoa, and other big companies and we will work with you for even longer time than anyone can imagine.

If you have problems working in a clear manner, let us know straightaway. I found it very strange working with an old yard and they even do not read emails clearly. Please try not to ignore potential firms.

Vladimir,

I have sent all which we have discussed. I am not sure how this company works however they do not read emails properly. I would appreciate your support in getting this contract as I have to sign another one or I will include quantities in same contract.

I hope you understand the trouble I am facing here.

Regards,  
 Sam
